DISPENSERS

PORTION CONTROL technology

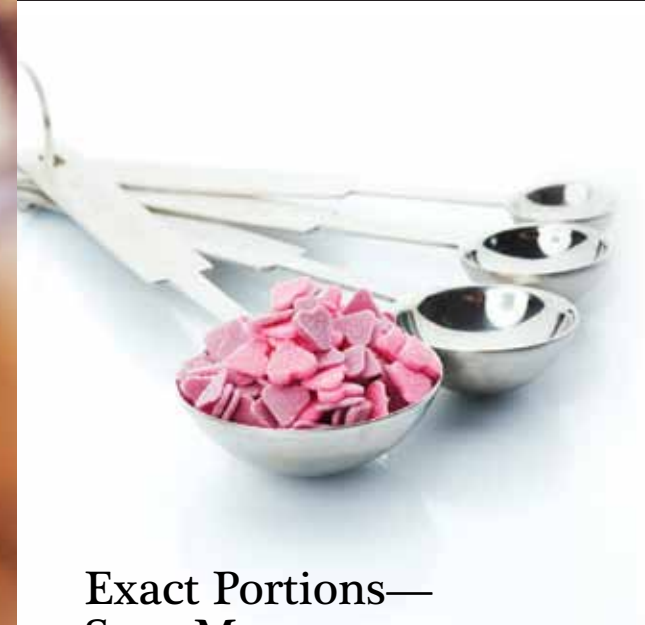

- SCOOP-IT™ technology dispenses exact portions from 1 tsp. to 4.5 tsp. in one turn.
- THE SCOOP-IT™ dispenser ball nests inside of a silicone funnel with two grooves on opposite side producing exact measured scoops of food each turn.
- OUR PATENTED PORTION WHEEL design gently dispenses dry food using soft, flexible wings that minimize food damage and serve exact portions from 1 tbsp. to 1.5 oz.
- THE SYSTEM is designed to keep food fresh and is easy to clean.

REVOLUTIONARY TECHNOLOGY

Portion control options
now available in sizes

1 tsp. up to 1.5 oz

Exact Portions— Save Money

Precise portioning dispenses efficiently while smart design makes cleaning quick & easy. The patented soft silicone paddle wheel reduces food damage while a sizeable catch tray keeps the dispensing area clean.

PORTION WHEEL Guide

Get To Know Your Dispenser

Changing your portion wheel is an easy 3-step process. Test each wheel with your dry foods to determine which works best for you!

Here are some easy guidelines to help you understand how the different wheels work:

1. The **EZP004** is great for dispensing larger items such as, medium grind cookies like **Oreos**, cereals & granolas, trail mix, coffee beans and most kinds of dry foods.
2. The **PRO6-SM** is perfect for medium items such as, chopped nuts, mini chocolate chips, crushed M&M's and Wonka Nerds...etc.
3. If you're looking for precision, the 1 teaspoon Scoop-It™ portion wheel delivers the most accurate measurement on the market. The patent-pending Scoop-It™ wheel is ideal for smaller items such as, sprinkles, crushed peanuts and almonds, coffee, sugar and spices.

Just a few examples of the kinds of toppings for yogurt and ice cream shops, coffee shops, tea shops, and spice shops.
