VIVALDI HIGH LINE BUFFET

designed by Giuseppe Zema

Perché VIVALDI? Perché, ha ben vedere, un violino è uno strumento delicato, esile, ma oltremodo robusto, oseremmo dire efficace. Le composizioni più note di VIVALDI sono i quattro concerti per violino conosciuti come Le quattro stagioni, celebre esempio di musica a soggetto. Ecco la nostra nuova linea da buffet "VIVALDI". I prodotti della linea ispirata da questi concetti sono stati studiati per tutte le stagioni. Come per i violini costruiti con amore, anche i pezzi della nostra linea sono un prodotto artigianale. 10 strati di nobile noce sono assemblati con colla atossica e piegati con stampi a vapore. L'intreccio così creato diventa un pezzo esile, delicato ma molto robusto. La linea viene poi trattata con vernice atossica con effetto "satinato". Abbiamo cercato di darTi, caro cliente, la sensazione di toccare il cuore di questo legno. Sentirlo "vivo" per un lungo cammino assieme.

Why VIVALDI? Why, if you have a close look, a violin is a delicate instrument, thin, but extremely strong, we could say effective. The best-known compositions by VIVALDI are the four violin concertos known as The Four Seasons, a famous example of music in the subject. Therefore our new line buffet "VIVALDI". The products of the line inspired by these concepts have been studied for all seasons and all kind of usage. Same as the violins, even our products are a handmade product, made with love and passion. 10 layers of noble walnut are assembled with non-toxic glue and bent with steam molds. The result is a very thin, delicate but also very sturdy product. This product line is then treated with non-toxic paint with a "satin" effect. We have tried to give to you, dear customer, the feeling of touching the heart of this wood. Feel your trolley "alive" for a long journey together.

Bianco o nero... se siete in cerca di un design unico, moderno ed innovativo, di un prodotto facile da usare e flessibile nella sua applicazione, abbinato a materiali di primissima scelta fatti per durare nel tempo... allora la linea premium ZEROuno è la scelta giusta. La linea ZEROuno è ispirata ai sistemi digitali, allo 0 e 1... semplice, squadrato e logico. Attraverso la tecnologia innovativa ZEPÉtouch™ la superficie di legno risulta soffice al tatto, è facile da pulire ed è resistente ai graffi ed al calore, rendendo questa linea perfetta per un buffet di prima colazione, per eventi, per il catering negli hotel di lusso, ristoranti gourmet, navi da crociera e servizi catering di alta gamma.

Black and white... if you are looking for a revolutionary, modern and unique design, flexible and easy usage, high quality materials and items build to last, then the ZEROuno premium buffet line is your right choice. ZEROuno means zero-one in Italian: this line was inspired by digital computer like squared wave, always 0 or 1, always clear and logical. Through our innovative ZEPÉtouch™ technology, the surface of all the wooden parts is soft to touch, easy to clean and gives the wood anti-scratch resistance, making this line perfect for breakfast buffets, events, catering for luxury hotels, gourmet restaurants, premium cruise lines and top caterers.

THE ZEPÉtouch™ TECHNOLOGY: Special warm and soft touch - matt finished surface. / **Hydrophobic high-tech surface** treatment with selfcleaning effect - modelled on nature: Dirt can be easily removed by water. / **Good fire- and high temperature resistance** for wooden trolleys. / **Excellent resistance to abrasion and scratches** for a wooden trolley. For example the bottom of porcelain bowls and dishes could be unglazed and therefore sharp, and can therefore cause scratches on the surface of wooden trays and trolleys. / ZEPÉtouch™ **protects your investment** through longer lifetime of the trolley. / This finish is non toxic and complies to the European REACH regulation.

LEGNO

WOOD BUFFET LINE

designed by Giuseppe Zema

La linea buffet tradizionale con un design senza tempo. Questa linea è nata 20 anni fa, subendo nel tempo varie evoluzioni stilistiche e tecniche, ma è tuttora una delle linee più vendute ed apprezzate per hotel e ristoranti di stile classico ed alta gamma. Noi della ZE PÉ da sempre abbiamo puntato molto sul rispetto ambientale ed a una produzione eco-sostenibile. Questo per quanto riguarda i materiali, il processo produttivo, ma specialmente creando prodotti durevoli nel tempo. Tanti dei nostri primi articoli sono ancora in uso quotidiano presso i nostri clienti – per noi, la migliore prova di qualità e di soddisfazione della nostra clientela. Tutta la linea è prodotta con legni pregiati ed è disponibile in 2 colori: ciliegio e wengè. A richiesta ogni colore é possibile.

LEGNO - our traditional and timeless wooden premium line. This line was born 20 years ago, and since then has been kept up to date with constant design refreshments. Today it is still a hot seller for classy style restaurants and hotels. For ZE PÉ since the beginning the focus was on environmental friendly products and manufacturing processes, which for us also mean creation of long lasting products. Most of our first produced items are still in use today - for us the best way of respecting the environment and our customers. All items are made of hardwood in 2 standard colours: cherry wood and wengè. As ZE PÉ is direct manufacturer special colours always possible upon request.

NATURE TROLLEY LINE

designed by Giuseppe Zema

“...prepara nuove fiaccole, ti si conduce la sposa; spargi, o marito, le noci...” (Virgilio)

Dedicate a Giove e definite “cibo degli dei”, venivano gettate in aria e offerte durante le cerimonie nuziali Juglans regia è il nome botanico della pianta di noce coltivata per i frutti e lo sfruttamento del legno. Già nell'antichità si conoscevano i principi benefici del frutto e le notevoli caratteristiche tecniche nell'utilizzo del legname di noce principalmente in ebanisteria, esiste ampia storiografia già dal medio evo, e conosce una vasta diffusione nell'arte sacra nel periodo successivo; 1400-1600. Il legno di noce è sinonimo di pregio, di gusto e del lusso. Quale migliore scelta per la nostra linea di carrelli high end? Infatti abbiamo scelto il massiccio, mettendo in vista qualche piccola imperfezione come segno distintivo della bellezza di questo legno. Il meglio del meglio per ZE PÈ.

„... Preparing new torches, you will lead the bride; scatter, or husband, nuts ... „(Virgil)

Dedicated to Jupiter and defined as „food of the gods“ nuts were thrown into the air and offered during weddings Juglans regia is the botanical name of the plant cultivated for its fruit and exploitation of wood. Already in antiquity the principle benefits of the fruit and the considerable technical characteristics in the use of walnut timber mainly in woodworking was well known, there is already extensive history from the Middle Ages, and from 1400 to 1600 its wide spread of religious art in the subsequent period. The walnut wood is synonymous with value, taste and luxury. What better choice for our line of high end trolleys? In fact, we chose the massive hardwood, having some small natural imperfections as a distinctive sign of the beauty of this wood. The best of the best for ZE PÈ.

ITALIA TROLLEY LINE

designed by Giuseppe Zema

Nuova linea di carrelli dal nome antico, originato in Calabria dagli antichi Greci, "Italoï" o terra dei tori. Appunto, toro: duro, squadrato e pieno di forza. Quercus petraea o quercia, quindi rovere, é l'essenza antichissima, il cui frutto sfama ancora gli animali delle foreste, che arricchisce con le sue venature screziate i ripiani. Le finiture moderne: dalla leggera sbiancatura dei ripiani fortemente satinati al nero profondo e vellutato della vernice atossica, ignifuga e idrorepellente delle gambe in alluminio, ne fanno un insieme di grande impatto visivo. Le ringhiere in acciaio inox e le ruote pivotanti in poliuretano silenziosissime e antistatiche formano parte della modernità e caratterizzano l'alta qualità ZE PÈ. Il connubio, quindi, tra antico e nuovo, genera semplicità, modernità e minimalismo.

A brand new trolley line with an ancient name, which originated in Calabria by the ancient Greeks, „Italoï“ or land of the bulls. Exactly, bull tough, square and full of strength. Quercus petraea or oak is an ancient essence, the fruit which still feeds the animals of the forest, which enriches with its veins streaked the shelves. The modern finishes: from light bleaching of the shelves strongly to deep black satin and velvet of non-toxic paint, flame retardant and water resistant aluminum leg, make a collection of great visual impact. The stainless steel railings and polyurethane, antistatic and silent swivel casters form a part of modernity and feature the premium quality of ZE PÈ. The union between old and new creates simplicity, modernity and minimalism.
